

VOLUME 36, 2000

LIST OF CONTENTS

Number 1

- | | | |
|-------------------------------------|----|--|
| H.S. Eisner | 1 | The Channel Tunnel Safety Authority |
| W.-R. Chang and S. Matz | 19 | The effect of filtering processes on surface roughness parameters and their correlation with the measured friction, Part I: quarry tiles |
| W.-R. Chang | 35 | The effect of filtering processes on surface roughness parameters and their correlation with the measured friction, Part II: porcelain tiles |
| H. Graf and H. Schmidt-Traub | 49 | Early hazard identification of chemical plants with statechart modelling techniques |

Number 2

- | | | |
|---|-----|--|
| F.A. Fathallah, R. Grönqvist and J.P. Colnam | 69 | Estimated slip potential on icy surfaces during various methods of exiting commercial tractors, trailers, and trucks |
| G.W. Shepherd, R.J. Kahler and J. Cross | 83 | Crane fatalities — a taxonomic analysis |
| R. Tait and D. Walker | 95 | Marketing health and safety management expertise to small enterprises |
| M.D. Cooper Ph.D. | 111 | Towards a model of safety culture |

Number 3

- | | | |
|---|-----|---|
| S.L. Comte and A.H. Jamson | 137 | Traditional and innovative speed-reducing measures for curves: an investigation of driver behaviour using a driving simulator |
| D.P. Manning, J.C. Davies, G.J. Kemp and S.P. Frostick | 151 | The Merseyside Accident Information Model (MAIM) can reveal components of accidents that lead to attendance at fracture clinics and cause disability: a new approach to accident prevention |
| N.A. Kartam, I. Flood and P. Koushki | 163 | Construction safety in Kuwait: issues, procedures, problems, and recommendations |
| M.R. Lehto, J.D. Papastavrou, T.A. Ranney and L.A. Simmons | 185 | An experimental comparison of conservative versus optimal collision avoidance warning system thresholds |
